MONDAY MORNING SEP. 15, 1851.

The Pair at Providence is an excreation worthy of the industry, enteror, so and talent of the State, and re-Acets the highest credit upon our citizens. It is held in the halls over the Rail Road Hepat, which are admirably adapted for the purpose. There is a targe collection and great variety of all not her of articles most of which have e mmanufactured in this State. We from decia it necessary to go into parics, are as to the nature of the articles, be need they are nearly all from other, in time of the firste, and consequently car readers will not feel that interest in in the which they would it this town? argely interested and represented

The only articles which we notice? from here were the excellent Cooking It inges of Wm. H. Blies; an improved He recuting Machine of Cornell & Dento Pase Oil and Borning Fluid, of Partip Rider; Daguerreotypes of J. A. Williams; and Dental and Toilet and cles, a. R. R. Hazard & Co.

The Horticultural Department is par declarly fine, and is equal to anything of the kind which we have ever witness ed at the New York Fairs.

The Pair has been attended by immease crowds, every day; we noticed a great many of our citizens there Frity. It will continue open until Tuesday evening, probably, and we trust that all those who can make it convenient, and who have not already been, will go, to say or to-morrow. We can assure all that it will most simply repay them active trip.

The annual Address was delivered Friday aftermoon, at the First Baptist Church, by Dr. Wayland, President of Brown University. The Address cuntured a large amount of useful and valuable statistical information, particular-But some But some of the sentiments which Dr. Wayland advanced were past all endurance. He to k the broad locofoco free-trade ground, and advocated it, with all his power. Atthough Dr. Wayland is an exceedingly learned and able man, still, this subject of a Tariff is one upon which his mind has always been foggy,-and, in his advancing years, he seems to be more il an ever beclouded. Dr. Wayland has always been a lice trade location, and, on this account, we were somewhat our prised to find him announced as the orator on this occasion,-inasmuch as Illiade Island is most notoriously a strong Tariff State, and is very much desendent upon her Manufacturers, for her prosperity and wealth - and these cannot be successfully carried on without just such a Protective Tariff as the Wijigs have always contended for,

The particular portion of Dr. Way land's Address to which we take exceptions, gave marked dissatisfaction to . ony present,—and quite a number left the house. Even although he entermas such-sentiments, it was extreme had taste to introduce them an such apcheasion, when they were entirely imin lied for, and when he was addressing a Society, the measure of which were dependent for their prosperity upon those very principles which he denounced.

We spall speak of this Address, at hatere time, after it is published.

All President Fillmore will arrive in towa to-merrow morning, and join life factor at the Believae House. We do not suppose that he will remain long, ar I we trust that some public demotewill be made, and that each honors will be shown him as are due to the President of the United States.

FUGILIYE STAYE RIOF IN PERSEYLYA. Mr. Gorsuck was killed, and his stave, s.i. consider was kindly and his samme tally wounded, and several other persons bejured. The officers were driv-en from the ground by eighty armed a press. From the best reports we learn that the colored population in the vicinity having been informed of the mattre of the visit of these officers to Christiana, held a meeting and asked the opinion of several leading abolition-iers as a what course they should pur-one. The answer was, as one of the reports state, that they should stand their goods.

At the time the 5 o'clock train passed through Christiana they were holding an inquest on the body of Mr. Gorsuck. The excitement in the neighborhood

The information to the fugitive slaves that their master and the officers were after them, is believed to have been given by two negroes from Philadelphia, who dogged the pursuing party to Chris-

A telegraphic despatch was received at the office of the Police Marshal, dated at Lancaster, asking that officers might be sent to West Philadelphia, to intercept the murderers, who had fled in the slow one. The line arrived at 5, and slow one. The line arrived at 5, and then paye no description of the parties.
